

# Ethical social environmental CARBON credits from Timor-Leste.

Engaged over **550** subsistence farming families  
 Propagated and planted over **110,000** trees  
 Employed **11** local staff  
 Delivered **agroforestry training** to participating farmers

CarbonSocial credit are the first ethical, social and environmental Gold Standard certified carbon credits to come from Timor-Leste.

**IMPACT**  
 Replanting the forests  
 The new forests provide a highly effective form of carbon capture and storage, while reducing soil erosion and degradation, improving the habitat, restoring the water table, and boosting crop yields and nutrition.

**Ending poverty and hunger**  
 We've contributed over USD\$250,000 to the local economy through annual farmer payments, wages for employees, and local activities and infrastructure.

**Regional partnerships**  
 We're building partnerships across the Asia-Pacific region to build social and economic participation through educational, cultural and people-to-people links.

Simple action. Many people. Big impact.

# Become a climate changer

Simple action. Many people. Big impact.

It's simple actions by many people that will make the biggest impact on climate change.

## WithOneSeed community forestry program

WithOneSeed is the first Gold Standard certified carbon forestry program in Timor Leste. It is developing capacity for subsistence communities to replant forests as a carbon store, build local economies, delivering practical agroforestry and permaculture training to create a more equal and just world. CarbonSocial credits are a product of the WithOneSeed program.

## Impact Sustainability

We have partnered with Impact Sustainability, a boutique consultancy that assists business from the creation of a sustainability strategy right through to measurement, management and communication of performance. This service is supported by a state-of-the-art measurement and reporting software.

## Carbon footprint report

Impact Sustainability will collect and analyse your company environmental data and provide you with a final carbon report. We load all data into the system so you are able to use the system reports to view your results and see which areas of your business have the biggest carbon impact.

## Carbon management

Impact Sustainability is scalable web-based tool that allows your business to undertake a simple carbon footprint analysis going all the way to a complete management tool for your sustainability performance (think accounting software of sustainability data).

You can choose to engage with us to whatever level suits your business and knowledge of sustainability data measurement.

## How to purchase CarbonSocial credits

You can purchase CarbonSocial credits at [www.CarbonSocial.global](http://www.CarbonSocial.global)

Every CarbonSocial credit purchased removes a tonne of carbon dioxide from the atmosphere, supports subsistence communities, and helps replenish the planet.

To find out more about WithOneSeed community forestry or about CarbonSocial credits contact: Andrew Mahar AM on 0401009242 or [andrew@xpanse.net.au](mailto:andrew@xpanse.net.au)

# CarbonSocial is much more than just a standard carbon credit

By purchasing CarbonSocial credits, you'll be doing much more than just offsetting a small part of your annual carbon footprint.

The table below shows how CarbonSocial credits compare to other standard carbon credits on the market.

8 key reasons to choose CarbonSocial credits	Carbon Social credit	Standard carbon credit
<b>1. Sequestering carbon</b> > Each credit removes one tonne of carbon from atmosphere	✓	
<b>2. Community first</b> > Small landholder management returning value directly to the community	✓	Profits often go to shareholders before local community
<b>3. Social value</b> > increasing access to education > building regional partnerships > creating healthier communities > helping end poverty and hunger	✓	
<b>4. Economic value</b> > boosting local economies > providing means to earn an income > increasing economic participation	✓	
<b>5. Environmental value</b> > making environments more sustainable > reducing erosion and degradation > improving soil and water quality > restoring natural habitats	✓	
<b>6. UN Sustainable Development Goals</b> > Help deliver United Nations Sustainable Development Goals including: 1. No poverty 2. Zero hunger 3. Good health and well-being 4. Quality education 8. Decent work & economic growth 9. Industry, innovation and infrastructure 10. Reduced inequalities 13. Climate action 15. Life on land 17. Partnerships for the goals.	✓	Often only helps deliver on United Nations Sustainable Development Goal 13 (Climate action)
<b>7. Gold Standard-certified</b> > The first Gold Standard-certified carbon credits available from Timor-Leste with in-country government backing	✓	
<b>8. Solid roots, long-term vision</b> > WithOneSeed was established in 2009 and has a sustainable business model in place until at least 2030	✓	Often no long-term strategic plan for sustainable delivery
